

**"HERE IS A STARTLING AND
POWERFUL NEW PERSPECTIVE . . ."**

Says David McArthur, Unity Minister and co-author of *The Intelligent Heart*—

"Passage from Karma is a vision for the unfolding of human consciousness from the perspective of 'one power.' Traditional religion has held humankind in a dualistic dialogue on sin and repentance. Here is a startling and powerful new perspective that views us not as fallen, failing beings, but as beloved children of God growing in that Love. Treat yourself to understanding your own spiritual growth with a divine compassion."

WHAT OTHERS ARE SAYING ABOUT MESSAGES FROM GOD:

"This book is a sweet remembering of who we are, in truth. I was deeply moved and continue to be challenged by this material. What would our world be like if we all stopped trying to be who we think the world wants us to be and let ourselves be the powerful, loving creations we truly are? Read this book and lets go there together." — Kendall Larson, Minister

"I continue to be thrilled and astounded by Messages from God: Passage from Karma. The Source tells all of humankind that the burden of karmic debt has been paid. And what is more, in a mere moment of acceptance, we are all released from bondage and delivered into an eternal place of unequivocal and all-encompassing Love. This is a book we have all needed, to lead us Home in this new century."
